You have an opportunity to put in what they may talk about, yes, to add to their talk.

This is a story part of 25 Army, Navy, Marine, Air Force people, who are hidden out in the jungle for 36 hours, dressed in camouflage in two – people teams, and are just sitting there.

----- < ^ ~ , , ~ ^ > -----

The majority of American soldiers have never witnessed large - scale battles or have been in some real **hot** and **bad fire** fights and have suffered through the **terror** of a Vietnam jungle ambush during their one - year tours. But when they did, dozens of men could **die** within minutes. For one, an acting squad leader within Delta Company, the ambush of October came just three - months after he arrived in Vietnam, and what mattered on that terrible day was whether you were in the shade or in the sunlight. Crouching for cover behind a three - foot high and two - foot wide anthill, he stayed out of the light and watched more sun light exposed his comrades to get shot by **VC**. He later crawled across the battlefield, "trying to find somebody that was still alive." But the bodies had been so shot up that many were unrecognizable. He did identify one victim only by his 101<sup>st</sup> Airborne tattoo.

Five special team people are standing in front of 215 **bad drug** cartel S.A. army men who have just surrendered. They have been bound with their hands and legs awaiting UH-1s coming in to get them.

The South American new Special Forces Army Col. back at Catia La Mar is radio called to come in and pick up 215 **bad drug** cartel army men. None were **killed**. Got back he would see them in less than an hour, departing in 5 - minutes. The men are soon all moved over in the shade for the next two - hours or so wait. Four of the 9 “T” team women go out up with Rita, in the front of the men facing south in the shade. More down a bit.

- - ----- < ^ ~ , , ~ ^ > ----- - -

Why? Well, the next “T” unit mission was for two 10 – man (**people**) teams and a five - people control command spot team to make up the mission team of 26 people teams. The six in the command control team part is: USAF Chief James, over all commander, USAF Chief Scott, second in command, Army Chief Carl, in charge of the two – site guard teams, Team radio is the USAF Special Forces Mission “T” unit commander Army Lt. Col. Raymond Fitzgerald. Also with them are Navy PO2. Rita Jo Dove (**Linguist – for Spanish**) and Army Cpl. Lisa Lynn Jackson (**Linguist - for French**). Teams go on this South America jungle mission.

SP (**Sniper Protection**) # 1: Marine Cpl. Booker Parks with SP Spotter Cpl. Ray Blackwood. Who are also in charge of # 1 - 4 teams of 2 people each.

Team # 1 A (1) 82<sup>nd</sup> > Army SSgt. Dora Miller (**female**) and Team # 1 B (2) Army Pvt2. Bert Thomas (**male**).

Team # 1 C (3) 82<sup>nd</sup> > Army SSgt. Sarah Durbin (**female**) and Team # 1 D (4) Army Sgt. Parker Rhodes (**male**).

Team # 1 E (5) Marine SSgt. Roland Jenkins (**male**) and Team # 1 F (6) Army Pfc. Angela (**Sandy**) Holliday (**female**).

Team # 1 G (7) Air Force SSgt. Paula McGill (**female**) and Team # 1 H (8) Army Pvt2. Henry Norman (**male**).

SP (**Sniper Protection**) # 2: Marine Cpl. John Coleman (**male**) with SP Spotter Cpl. Rick Malone (**male**). Who are also in charge of # 2 - 4 teams of 2 - people each.

Team # 2 A (1) 82<sup>nd</sup> > Army SSgt. Steve Clement (**male**) and Team # 2 B (2) USAF A1C Jessie Rodgers (**female**).

Team # 2 C (3) 82<sup>nd</sup> > Army SSgt. Fred Buckley (**male**) and Team # 2 D (4) Army Pfc. Lori Gross (**female**)

Team # 2 E (5) Army SSgt. Jerome Dickey (**male**) and Team # 2 F (6) Army Pvt. Rain Gifford (**female**).

Team # 2 G (7) AF SSgt. Donald Mueller (**male**) and Team # 2 H (8) Army Pvt2. Robert Muller (**male**).

With the two - teams fully maned they go out and train as a moving patrol unit team in two - different “T” unit jungle training two – wheel track areas. They practice **stopping** and getting down and off the trail, with each two - people moving off the trail on each side and train scattering a ways off each side of the trail and to hide. The five two - man teams taking turns up at point and many other patrol task over three – days of training.

Practice is making sure a meal **stop** location is clear, doing two - man camouflage holding spots and train to clear an area for the team for a small river crossing and many other potential real mission task training. These two - teams do **not** know just what this next mission will really be. They all do the **fire** at targets course four - times a day for two - days. The two - people on each of the 10 - teams are learning each other to work as a real team.

They all eat and still cover **firing** zones as a two - man (**which, yes, some are women**) team, sleep and do potty breaks as a team. Talk over for each one any mission personal weaknesses, mission strengths, mission **fears** and the real fact as that they each may have to shoot to **kill**. Talk over that this team is women heavy as it has 9 - women and 17 - men for a team of 26 people. Their Mission is to go down to City of Caracas, Venezuela and the field mission is out from there to the smaller village of Catia La Mar, Venezuela and on to the mission target which is 50 - miles more out in the jungle from there.

This team gets in from a Lear Jet and with 13 - men on one HU-1 chopper and 12 men on the second UH-1 chopper to fly out and to and over Catia La Mar.

Then they fly on for 50 - more miles to the team's LZ (**Landing Zone**). The two - UH-1s get into their LZ and the team hits the ground. They scatter a bit and cover their faces as the two - UH-1s leave. They have 6 - miles to move off as a patrol to hike to the team's first mission site, which is to **stop** a drug cartel army team of unknown size from hitting and **killing** off another **drug** cartel's two - loaded burros with four 40 - pound **drug** packs. They **don't** know if the or any attacking **drug** army men number, as they may be 50 or 100 or 400 **bad drug** cartel army Venezuela men. They are going to get there and will have to scope out the attacking **drug** army men to really know.

The team moves along this cart wheel two - track jungle path while staying alert and really looking and checking for the **bad** army men as this team is in a day early. Each of the two - man team is in the track spaced out good to the next two - men in the other track.

They see a lot of ripe eatable jungle fruit along this cart two - track jungle path. They have one team in the lead spot, the mission control men are in the middle, and the second team following, covering the team's rear. After they move for three - hours the lead team hand signs back as each team move off to their side and back away from the path and take good cover. "Click. Snack time take 20 - minutes," comes over each's radio ear phones (**which are small like hearing aids**). They move off into cover and takeoff back packs, remove a good size snack protein bar and water canteen and lean back on their packs as they also still stay alert. They softly talk about this mission part between team mates. The team has about a mile as yet to move on to the first mission site.

“Click. **Drug** cartel’s two - loaded burros with four - men coming through. Insure you are hidden well from view of the cart path,” each one’s radio says. The team is hidden as they have been trained behind the jungle clumps of brush off each side of the path.

They move on through **not** knowing that 26 - men (**people, both men and women**) are just a ways off each side the cart path. The team rear men team radios out, it is time to move to the target.

The team is up and moving as they all stay on alert more because they are getting closer to their target mission site.

At the end of the next hour, they are all in their mission site places (**spots**) a little above the drug overnight shack and getting each their team’s camouflage work done. The team control place or spot can view over the **drug** shack and lower land area where the **drug** cartel’s two - loaded burros with four - men are coming up to the shack to stay for the night.

In the morning the sun is out with a few clouds drifting by with a nice breeze. They hope it stays that way all day. All is tight, hide and staying on alert, making their 100,000 **firing** zone checks. The **drug** cartel’s two - loaded burros with four - men that is coming into the shack should be here about two - hours before dark. At the well - hidden control place the long radio gets a call over the head set. Six UH-1s and the South American new Special Army Forces Col. with a few of his men are at Catia La Mar standing by. The team is told by radio ear phones but they all know it is a 45 - minute UH-1 flight time to get here if this team needs any help. This team may have an hour of a lot of **fire** from some real **bad drug** cartel army men **fighting** time before any help gets here, help like those M-60s on the side of those UH-1 choppers.

At 2:10 p.m. all team radios. “Click. A lot of drug cartel army men are approaching this target coming in from the south / east.” The whole team is looking to check just what is coming in for them. It looks like four - groups spaced apart by 15 - yards of 50 - men per group in four groups with a smaller group of 15 - men in the lead. The team just sits and watches them move in closer. “Click. “I am sure they will form up on two - sides of the path in small group of men with a good space between them.” They have four - 50 - man teams. “Two - M-79 from each team. One close and one long shot to the far side over both side of the men’s groups on both sides. Click plus count of two.”

They watch the 215 - men move in closer. The small group of 15 - men **stop** out 20 - yards south from the shack as the cart path comes in from the south up to the shack. **Not** long and the second group of 100 men are in place on the west side of the cart path.

They are **stopped** but are talking and just milling around waiting to get their group of 50 - men in place to move to where they will ambush us coming in. “Click. Ready M-79s. Next click counts two.”

By only their team they each have the two - M-79 men ready with who **fires** close and who **fires** far just past the far men and on which side. “Click.” Two - seconds later the team hears four M-79s **fire** but it sounded like maybe only one loud **fire** of M-79s. Rita is right on the speaker, speaking in Spanish. “Only one M-79 grenade will **kill** 40 - of you men and really hurt a lot of others in the group of 50 men. Face north and pass out all weapons, put them out on the ground, then face south and sit down or be **killed**. Sit and **don’t** move. We have with us six M-79 grenade launchers. All **dead** men will lose their men’s balls by me personally.” They all know she is a woman and the men know she means that. The men are **not** sure what to do and just are standing there. One of the men in the small group is at the group’s outer edge, he puts his hand on top of his side hand gun. All hear the sound of his hand gun handle and his hand that is hit by the **fired** sniper shot, ah, oh, and also his loud scream from him out in pain. “Move the weapons out now or I count to four.”

The weapons, hand guns, rifles, and knives come flying out by being thrown out over the men to their north side. The men are turning around and sitting down facing south. The one main cartel drug army leader is really pissed - off by this but he also throws out his hand gun.

“I am sorry you need to sit in the **hot** sun. Time soon we will move you all to cool shade.” Five from each team go out and start to bind men’s hands and move the men over to shade and plastic strap the men’s feet, with them facing south. Each goes back and gets and binds another one. Save the 15 leaders still in the **hot** sun for last to bind and move.

The South American new Special Forces Col. back at Catia La Mar is radio called to come in and pick up 215 **bad** drug cartel army men. None were **killed**. Got back he would see them in less than an hour, departing in 5 - minutes. The men are soon all moved over in the shade for the next two - hours or so. Four “T” unit team women go up with Navy woman Rita who had move out in the front of the men facing south in the shade.

- - ----- < ^ ~ ,     , ~ ^ > ----- - -

(This is how the five - women are dressed. **Not** what you had in mind?)

Rita with the speaker in her hand tells the men in Spanish, she tell that, “They have been **lied** to, it is **satan** the **devil’s lie**. I have **died** and I did **not** come back as a butterfly or any dog or any man. You will **not** get any one or three nor 72 virgin women after you **die** and go up to **Allah’s heaven**. **No** matter where you go when you go back to the city, you go to jail or to go free, get someone with a Christian Bible and learn how to give your life over to Jesus. Two team people are doing first aid to the man’s hand. Rita tells the men; you men were out here to **kill** other men. But the great Jesus sent us to save you from that **killing**. You would have been **killed**. The only thing you men have done is to be out here and you caused a small situation. You will be taken back and held for five - days or less or maybe a few more days. You will be asked **questions**, for yourself, a lot of **questions**.

“Then you will be asked some more **questions** from the South American New Special Forces Army Col. and his men. Then you all will be free to go. That is if you have **not** committed any big crimes the Police want you for. We could have **killed** you all but our God’s Son, Jesus told us **not** to **kill** you.

“Our great Jesus asked us to save all of you. You all have an hour and 30 - minutes to think about all I have told you. The Bible is **true**, and it is very simple, it is the Bible way, is good, **not** the Bible way is **bad**, you each pick one way. It is easy to understand, a good way or a **bad** way, you each have to pick only one way. I’m done telling.”

The five - women move a bit closer to the men. They stand there and visit some softly and just look over the men. Someone asked, “You sure we will go free?” (In Spanish) She nods back yes. About 35 - more minutes they hear the UH-1 choppers coming in. They land and the Col. comes over. On the speaker the Col. tells them they will be taken back to the city and held for three - up to 10 days.

And then be set free if they, yes, if you have **not** committed any big crimes the Police want you for. This will take a few hours to move all you men. Some may have to stay here over tonight. If so, we will bring back food for who is staying here over night. Who get to stay do **not** cause any problems with those people here. They, those people here really care about all you men because they could have **killed** you all and just left you here **dead** and then after you **died**, in a bit you would be without your balls of course.

They could see a lot of these men are thinking about what Rita said and what then the S. A. Army Col. said, a lot.

Many Veterans may **not** show any signs of intent to harm themselves before doing so, but some actions can be a sign that a person needs help. Veterans in **crisis** may show behaviors that indicate a risk of self - harm.

The following can all be **warning** signs:

- Appearing **sad** or depressed most of the time
- Hopelessness; feeling like there's **no** way out
- **Anxiety**, agitation, sleeplessness, or mood swings
- Feeling as if there is **no** reason to live
- Feeling excessive guilt, shame, or sense of failure
- Have Rage or anger
- Engaging in risky activities without thinking
- Losing interest in family, hobbies, work, or school
- Increasing alcohol or drug misuse
- Neglecting personal welfare; a deteriorating physical appearance
- Withdrawing from family and friends
- Showing violent behavior, like punching a hole in the wall or getting into fights
- Giving away prized possessions
- Getting affairs in order, tying up loose ends, or writing a will

The following signs require immediate attention:

- Thinking about **hurting** or **killing** yourself
- Looking for ways to **kill** yourself
- Talking about **death, dying, or suicide**
- Self - destructive behavior such as over drug abuse, weapons, etc.

Ah, but before this 215 - drug cartel **bad** army men got to their mission area, they wait.

**Remember:** Next “T” unit mission is for two - 10 – man (**people**) teams and a six - people control command team to make the mission team of 26 people. The team mostly are in teams of two - people in a hiding place and are in camouflage spots out in the remote jungle.

They are staying and are hiding in their two - people hiding spots for about 46 - hours. With nothing to do but look out at their **firing** zone and time also to think. Most of the team people also do really pray. They may talk in a **not** very loud but with only a soft voice. Here are what some of them of them talk about, as follows:

On team # 1 A (1) is 82<sup>nd</sup> > Army SSgt. Dora Miller and Team # 1 B (2) Army Pvt2. Bert Thomas, “You are an Army SP and a jump instructor. That is a lot of training. What got you to want to join the “T” unit full time?” Bert asked her.

“That is a long story but I guess we have some time. I was stationed for a year, **not** in Vietnam because I am a woman and I am an Army SP shooter, so I was placed in Klaeng, Thailand for a year. Well, you may want to know also why I became a sniper. My father was in the Navy CBs (**Navy Construction Builder Engineers**) as a sniper to protect those men as they done their CB duty jobs. Him being away from mom and us kids so much in the Navy so I picked the Army. Folks back in the US **didn't** know but we had a lot of **VCs** cross over into Thailand to move **VC** army supplies south to the coast to be placed on small boats and moved east and back up into Vietnam. As a SP we fly with Army troops on UH-1s all over the south east Thailand out of our base at Klaeng. Thailand was **not** in the Vietnam **war** zone so women could be there. I was in a lot of **hot war** action there but **not** in any way as much as our three - Chiefs, Jay and Jay C. SP teams were in. A few times we were way out numbered with **VC**, we called out for help and more Army men jumped in around or in with us. The second time we called for help the Army jumped in 280 Army men, some landed right in with us. About 60 of those men landed right in with us and maybe 30 men **didn't** land right and hurt their ankles and feet and were almost useless to us. Part of us had to go do first aid on them, they **couldn't** even walk and took us away from the **VC fire** fight. The other side of our team was doing the **fire** fight and after I talked with many of them. I worked out they needed some more or some different kind training for being in combat jumping.

“When I returned to the US. I put in for jump school, got more training and then become also a jump instructor to get some small things changed so our men could land without getting hurt, then from that I moved up to buddy jumping. I got hooked up with your “T” people on that **drug** mission by buddy jumping with your SP spotter. Being with Jay A. and Jay C. praying for those two - Mexicans when Jay A. was in that shack with them and then praying for the **healing** of his. That is Steve’s broken leg from landing on a big rock jumping in, well those two – really had a real **true** relationship with Jesus, which I then wanted and I knew I needed a lot more of. Anything else from me?” Asked Dora.

“Yeah. On your love life.”

“Yeah. Well, I was age 15, I had an older sister, she is dating a lot and she always came home bitching to me, we shared a room together at home, bitching about every second or so date, you have a nice first date and next date only what they all want was in my paints. They **don't** want a life time commitment with me, I tell them I want me for my husband after high school or in college. **No**, they want in my paints now. I **don't** think she was more than 17 maybe, and she swore off boys, young men or any men until she is age 25.

“She **didn't** make it to age 25, she got married at age 21. I had a lot of dates and I found out the same thing, I am saving me for my husband but the good men are very hard to find.

“That is about it.”

She is glancing at him but more so is looking out to their **firing zone**. “Ah, yeah, ah, me. Well, I am dating girls in high school and in the gym locker room other boys are naming out our high school girls as they are, as they said, are getting way past first base with. The girls at the time I was dating are named by those other guys, they say they have had them, I thought about them also and I then really lost a lot of respect for the girls in my high school. Well, all but two or three girls that were so called wall flowers. My uncle always said for me to get an ugly woman and you will never worry any. Later I worked out what he really meant. I **didn't** have the money to go to college and I still **don't** know what degree I would go to college for. So, I joined the Army. Yeah, I want a good woman, well really a good wife but where do I find one. Yeah, there are some great women here in the “T” unit but they are off limits with me being in the “T” unit and I am **not** ready to leave this “T” unit. I am getting older and just maybe I can find a good woman with a couple kids and maybe one who has lost her husband,” Bert said.

“What do you mean by she lost her husband, like he got **sick** and he **died** or by a **divorce**?”

“That is what I love about all the “T” unit people. You guys get right down to the real deep heart of any **questions**. I mean as he got **killed** or **died**. It takes two - people falling out of love to have a **divorce**.” He looks over at Dora until she glances over at him so he can read her face. Her glance and look is as she would really like to know. “I have given that a lot of thought. I think a woman with a girl and a younger boy, **not** any twins or **not** a boy and then a girl. I have talked alone with all you women and well, all but two of you women, alln want a girl and then a boy. I think it comes down to a mother and daughter to be bonding first. I picked up it would be better for me then to bond with the second kid as a boy. I would want her to have a good relationship with our lord and with our Jesus too,” Bert said.

“So that why you go over to the main base worship Church service to meet maybe your potential lifelong mate. I have been the Army a few more years than you and I have seen Army widows and they mostly move off, back to their home town when they lose their husbands. You have any idea about that?”

“**No.**” Bert says back. They **don't** visit any more for a long time.

(Team man # 1 A is: # 1) Dora - woman (What do you think they talk more about?)

(Team man # 1 B is: # 2) Bert - man (What do you think they talk more about?)

On team # 1 C (3) 82<sup>nd</sup> > Army SSgt. Sarah Durbin (**female**) and Team # 1 D (4) Army Sgt. Parker Rhodes (**male**). “Okay Parker, things are quit. Share with me you past love life and why did you go into the Army?” Sarah asked.

“Oh. I did Okay in school but was **not** an “A” student and for sure **not** any “D” and “F” student. But I really **didn’t** apply myself much. Most of my mind was on girls and sports. In high school I dated and I had some girls, well very young women. In my school it was call a fling ding, both for the girls and boys. You dated 2 or 3 times and if that kind of worked us boys would ding the girl and for the girls is about the same, they would get dinged. Would stay on together still dinging but did look at others and then we move on. I **don’t** think anyone got to upset over any break up much but maybe a few. Younger I heard about marrying a virgin but that went away my last two - years in high school. Had **no** money to go on to any collage and **no** real money jobs there where I lived, so I with four others, we hooked up with the Army, maybe later I will use the GI Bill. **Not** much to tell. How about you?”

“I started dating when I was 16. You dated 2 or 3 times and most of what they wanted was in between my legs, as you know. My older sister was dating a young Army recruiter her last year in high school. They dated a lot it went on for a year after I got in the Army. I **didn’t** see any way for me but the hard way for any collage and me working two - to four - jobs. My dad had an okay job but he thought a woman going to any collage was a waste of money unless she wanted to be a school teacher or maybe a nurse. Anything else from him was a **no**. I **didn’t** have any interest in becoming a teacher or a nurse. My sister’s now man friend had me come down and take the Army test.

“They said, I was well organized and I could go through basic and if I made it through Army basic I could go to Army supply school for a supply MOS whatever that was. I thought that over real hard for two - weeks. We had six - men and two - young women go in right after high school as they go into the Army and they came back and talked with us. They had went through Army basic and AIT whatever that was and told us where they were all now going. One girl now in Army supply and one guy were both going over to an Army Post in Germany. The rest to a state side Army Post, off in other US States. Talking with them I guess I was wowed some. I had **no** idea where I was going. Those two are planning on getting married over in Germany, that was another wow, for me. I did the H. S. grad walk and then two - weeks later went off to Army basic.

“After basic they moved us in a holding barracks area with the men but in a different close by barracks waiting for two - days for my supply AIT school date and they came and asked for any level headed people to go to the toughest AIT there is, to go SP school. Only three men’s hands went up and I feel my hand go up. Okay you four - step, over here by me. I am thinking that just maybe I should **not** have done this.

He said, Okay tell you guys this, anyone finishing this SP hard school gets 30 - extra leave days where you have the rest of your time in the Army to use and at the end with a jump up in one rank. He said he needed 11 people. Then 8 - more men and four - more women stepped over.

He had now had 15 people. Someone asked him, “What is a SP?” He said a very special person is an Army sniper. Someone said, “A sniper **kills** people.” All of you are in the Army now you are out of basic and you all are trained to **kill** people that are our US **enemy**. The AIT course is 8 - weeks long and at 4 - weeks you will get to pick an Army man or an Army woman as your team sniper spotter, which is a very important helper to any sniper.

“Also, if you come out in the top ten snipers you get first - pick of all those Army post you could go to. Yes, okay, I thought I will take Germany and will be at their wedding.

“I went to this AIT SP school. The first 4 - weeks as they were ten - times harder than in Army basic. My body went through hard combat things I did I **didn’t** even know my body could do. My E and E skills were in the top - three. My rifle **firing** hits were the best in that whole class of 36 people. I had never **fired** a rifle before I went to basic. At 4 - weeks we are down to only 19 people of the 36. They told us that only the top 8 people would make it to the end, that the real hard stuff was over. Only the 8 - best at E and E skills and rifle **firing** skills will make it. Oh, at first, he told us that this school would **not** count against us if we failed out. That we only would be in a later AIT class as we came in the Army for if we **didn’t** make it. We got to pick our spotters from the 17 people who just washed out. I went through 3 - people before I got my man partner. I came out at number 2 from two - women and the 6 - men left. I went and checked at Army Admen and it would 6 - months maybe more before any more SP would be sent to Germany. They offered two slots at AIT SP school. The # 1 man and I # 2 took those two - slots. A year later they are looking for SP to jump. I volunteered. After I, well we get put over with the 82 > Air Born as a SP team and we both got another jump in rank. Then I went on and I got buddy jump qualified.

“As for my love life, I have only friendly dated and have a few close men now but those men just as great friends but none I would really want to marry.

“There are two - men in the “T” unit I would consider to maybe marry but one is already married. I think that is it so far.”

“Thanks for sharing all that with me. I know who that one man is and I **won’t** tell anyone.” They **don’t** visit any more for a long time.

On team # 1 E (5) Marine SSgt. Roland Jenkins (male) and Team # 1 F (6) Army Pfc. Angela (Angel Sandy) Sandra Holliday (female). “Sandy, okay if I call you Sandy?” As he glances over at her. She nods back yes. “Well, things are quit. May I ask you a very personal **question**?” Sandy nods back yes. “I know people in our “T” unit **don’t lie**. That includes our 3 - missions Air Force and Army Chiefs who come in from Denver. You **don’t** have to tell me. But I am trying to just figure it out.

“In your first time in high school and first year in college you had **sex** with over or maybe about 70 men. Then you were an Angel and then you went back to your last year of high school and then went a year in college all over again but then you are back to be a virgin? Do I understand that right?” Roland asked.

“You are trying to just figure it out, what do you think I went through with me trying to figure all that out, just me being an Angle, well, for a while and then me back in my own life like I am back now two - years in my life like it **didn’t** even happen, then I find out I am back to me as a virgin. Yes, I had a lot of **sex** with a lot of men. I went through my last year of high school and a year of college two - times, that is four years but really in only two years.

“Then I find out I **didn’t** have any **sex** with any men, **not** one man.” They **don’t** visit any more for a long time, like for over 20 - minutes.

“Okay, okay, I got tangled up with some real **satan worshippers**, really **White Witches** only I **didn’t** know at that time they were **satan witches**. I was told they were disciples of Jesus. All of that was **lies** told to me. I even had a white light **spirit** guide only later, I found out he was really a **satan false light**. I was in college and felt and thought I was now worthless. So, I started to party a lot. And I left one **bad** group and went right into another kind of **bad** group, in with the doing the heavy drinking and drugs and a **sex** group. I was drunk or drugged up and I went to many open **sex** orgies and I let a lot of men have me because I really **didn’t** care. Why? Mainly, because my grandpa and with my strong Church up – brining and I then I find out I am really working **not** for Jesus but am working for **satan**. I was really working in the **enemy** camp; how could God ever forgive me when I am so worthless. I switched camps, to the other camp that were **not** of God, either, I guess I was in my life committing **spiritual suicide**.

“Nothing I could do now; I was doomed to **hell**. My virginity I was saving for my husband just **wasn't** to ever be, so why **not**, I had **sex**, I just **didn't** really care anymore.

“I was drunk or I was high on **drugs** and I had nor have **no** memory of any of the many first times of me having **sex**. I was asked by a girl close friend about me getting STDs. She told me, I would have terrible **death** as I knew I was going to **hell** anyway.

“Then a drunken driver of a big heavy loaded truck ran over me. I was in a coma in a hospital for over four months. I was taken up to **heaven** by an Angel. I done my Angel task for God as you heard that part of my story from Chief James.

“I got my body back and in a flash, I was back in high school and then a drunken driver of a big loaded truck ran over me. I was in a coma in a hospital for months. When I came out of my coma I had broken legs, hips, ribs, arms and in a week, then I had **no** broken anything but maybe only in my mind. Many who had NDE told me that is what I had – ah, I had an NDE (**Near Death Experience**) but **no** one I could find even one who got two - years back to do over again but me. Mine was different than what they had.” She **didn't** visit with him for a long time.

“Then my last year in high school I seemed to know who was having **sex** or that the boys dating me as it was really only **sex** is all he and they really wanted. My year in collage also I knew and I **didn't** know where I wanted to really do or go.

“Only that I had to find myself. I joined the Army. A year and two - months later and here I am, right here in the USAF ‘T’ unit. I **haven't** really dated any while I have been in the Army.” They **don't** visit any more for a long time.

Jesus Returns > Movie by Rapture: Are you ready?

Even though **no** man knows the day or the hour that Jesus will return; HE will return for HIS uncompromising remnant Church. For some of us HIS return **isn't** on any particular date but on the day, we meet our unexpected end here on earth. Are you ready to meet with Jesus?

On team # 1 G (7) Air Force SSgt. Paula McGill (**female**) and Team # 1 H (8) Army Pvt2. Henry Norman (**male**). “May I ask you something Paula, things are quit,” Henry asked. Paula nods yes. “You going to re - up in the Air Force?” Paula nods yes. “How do you think it would be – being married and still being in the “T” unit?”

“Is that a proposal?” (**Paula knows about Henry and airman A1C Joyce.**) Henry nods **no**. “Okay then it is just a **question**. Chief Scott does okay with that. Our boss the Col. does okay with that. Have you asked her?” Henry nods **no**. “Okay you two - want each other. That is great. Two - people in love. Have you prayed about you and her?” Henry nods yes. “You have **not** got God’s answer back as yet.” Henry nods **no**.

“Well keep on asking in prayer and soon you will know. I know you know what **true** love really is. Does airman Joyce feel the same about you?”

“I think so.”

“You just think so. You should know that for sure. Joyce even kind of glows when she is at the “T” unit with you. **Not** only me but all the “T” women can see it and they know Joyce loves you and I would say she loves you a lot. Us women have talked about you - two. We all think you two - match up just great. Have you started to be prepared to be a husband? Have you started to be prepared to be a father to your children?”

“Wow. I just love you guys from our “T” unit, you guys get right down into the heart of any matter. **No**, I have **not** considered that.

On team SP # 1 is (**sniper**): Marine Cpl. Booker Parks (**male**) with SP Spotter Cpl. Ray Blackwood (**male**). “Say - Booker. The “T” unit is the best thing that has ever happened to me, to you too?” Ray asked.

**“No.** It is me finding the **true** Jesus for me. And then Chief James, Jay A. and Jay C. and following that is the rest of you bubble heads as I mean that in a great way, **not** in any **bad** way. When I went home for that week. I rented a real nice new big black shiny four - door sedan car. I took my grandma Mel and Pop (**grandpa**) and yeah, also the young woman Ester from down the street that is saving herself for me out for a big steak dinner on me. That took over three - hours, with Mel and Pop with their false teeth that took some time. Grandma Mel was just so very proud of me. Kind of shocked her that I could even really drive a car. **Not** many in the project can even drive one, **not** alone have a car.

“I got there **not** long after lunch. I visited three - of the local project gang boys hang outs. I really pushed it hard on those boys in those gangs to get out ah those gangs and get right with Jesus and to get all the knowing and education they could. Some there were my friends with me back in high school. They all knew I was in the Vietnam **war** for a year and that I was in some **hot VC gun fire** fights and I came out okay from my visit back there before coming down here to this “T” unit. They all knew I have made good in the Marines and that I am a sniper. They all know about you too. I was a little concerned about parking that new car on the street in the project but **no** one even touched that new rental car. Ester was concerned about me, she asked me right in the middle of that great dinner if any women were in my life. So, I told her yeah, I am in love with about 20 of the greatest women there ever is in this world in the USAF “T” Army unit and they all loved me back too. She about chocked really good on that bite,” Booker said.

“Well, she **didn’t kill** you cause you is here, ah, well you came back all okay. Did you tell her or did you leave her thinking about that?” Ray asked.

“I told them all three - that I had **no** idea what love really was until I got in with the women and men in the USAF “T” unit, except of course from Mel and Pops loving me. But they raised me. I now really understand **true** love and what it really is to be a man.

“Ester sure **didn’t** understand that part. Ester asked me if I had been with another woman besides her? Grandma jumped on her, “Child mind your manners, that is **not** any subject for this grand dinner table.” I told them that there is some great white men and white women that I know for a fact really do love me.

“They love me so much they would **die** trying to save me on any of our mission. Mel asked me if that was for sure. I told Mel and all that is yes, I am sure and I would **die** protecting them too, yes, for any of them. Grandma Mel is looking right at me. Grandma I did **die** and I was Baptized and I was raised up with Jesus. Grandma Mel said so loud others around eating there heard, “Hal ah leu hula, Praise God.” Mel is well pleased with me; she is being such a Godly and Church woman. I **don’t** think Ester sure **didn’t** understand that either. She asked for some time with me alone later. I did have a hard life but it is getting a lot better.”

“I think you had a lot harder life growing up than I did. Mom is really proud of me. Me getting out of our low - income slums project. Boys still there I grew up with are now in gangs, **don't** work any real jobs and are all into **drugs, bad killing** gangs, and are in a lot of project gang shootings. I think our missions are even better and are safer than being on the streets back home. She tells me so back to me in her letters each week who all got shot and those who got **killed**. I really sense that it is great us being baptized together. You are my best man and will you be when I get married. Oh, and you will pay my way down to South America when you get married to her down there, right?”

“**No**. The Army Col. said he would pay for us both to come down if she tells me yes. I am going to ask for a few extra days to stay there coming back home after this mission. Like to stay here with me for a few more day. Maybe to train his men some more.”

Ray's look back at Booker told him yes. They have worked together through that year in Vietnam and through enough mission to really know each other, they had better because their lives depend on that kind of relationship and all their combat training together.

He also knows that she has a close, just one - year younger, real close friend that is with her a lot. They both are really beautiful young women. “Yeah. Maybe we can set us up a double wedding. How can we work that out, with them being down in South America and we are to be living in the US?” They both look out at their **fire** zone and both are thinking.

“Yeah. I kind of did have a hard life growing up. My real dad **died** when I was only 2 - years of age. He was at the **wrong** place at the **wrong** time. He had just got a jump up in his work position and had a great pay raise in two - weeks, the next day coming home he was at 6:30 p.m. caught in the middle of a grand **drug fire** fight and was hit 3 - times by gun **fire** and he was **killed**.

“I had a 6 - month - old new sister and a two - year - older brother but with mom's income gone we moved in with Grandma Mel and my Grandpa Pops, who are my mom's folks. Dad's folks lived far away somewhere. Mom worked two - jobs but with **no** good education other than high school she had low paying jobs. Mel and Pops mostly raised me. Mom had a few boy (**or man**) friends and when I was 12 - years - old, I was supposed to be up in my room doing my school studies but I was on the back porch, again. Over the last three - years I watch my mom have **sex** with a lot of different men out behind the house on a blanket.

“The last man was a big man pushing **drugs** both in the project and at the edge where outside the project cars would come **stop** and he would sell those **drugs** big time. He asked mom to marry him and they even had plans to build a big five - bed room house on that empty lot at the edge of the project right where he sold most of his **drugs**.

“Mom was really happy as I had seen her in years. He gave her money all the time so we had good food to eat and new clothes. Mom and he would sit out by the street curb and hold hands and while he would sell his **drugs**. A big gang only a few blocks away wanted his **drug** selling part and him out of their way, as I have been told. A car came by and shot them both, the Police report said they were hit with 57 - bullets, with both **dead**. Grandma Mel and Grandpa Pops raised me from then on. I really love these **drug** missions and I pray I am maybe just a small part of saving someone’s mom from getting shot and **Killed** over any **drugs** somewhere in the US,” Booker said. They **don’t** visit any more for a long time.

On team # 2 A (1) 82<sup>nd</sup> > Army SSgt. Steve Clement (**male**) and Team # 2 B (2) USAF A1C Jessie Rodgers (**female**). Things are quit all over their **fire** zone and this mission site for over 46 - hours. “Steve. May I ask you a very personal **question**?” He turns his head toward her and he nods yes. “You **haven’t** talked about your broken leg being **healed** on that old Glider **drug** mission trip along the US border out in Calif. when you guys got those two - Mexican border jumpers. Are you still processing that, yeah know, God’s **healing** touch?”

“As an Army SP I went to the Vietnam **war** for a year and came back for 16 - months and then went back to Vietnam for my second - time for another year. My wife at that time told me she was in total **terror** every day my second time to Vietnam.” Jessie is wondering if he is avoiding talking about his leg with God’s right away **healing** or he is going someplace with this? “As I guess you know, I have seen things **no** human person should ever have to even see. I have seen **killings** from our side **kill** other men from our side, I think in **two** cases. Oh, yeah, I saw a lot of **VC killed** and our men **killed** in the Vietnam **war**. I am **not** judging; I am just saying. I keep on telling myself I **didn’t** really see those two - **killings** like I think I really saw them. Both times we were in **hot firing VC war** action. Anyway, a while after I got back my second trip as an Army SP I had, well we had a chance to go to jump school as an SP, and still be an Army SP (**Sniper Protection sniper**). My wife with me and two – kids now, a girl then a boy, as she said I have really lost “IT” this time. Now I am going to jump and break my dam neck and get myself really **killed**.

“She said, “That I **couldn’t** get myself **killed** in the Vietnam **war** so I am just going out to **kill** myself jumping.” They **don’t** visit any more for a long time. Jessie will **not** now talk first because she feels Steve needs some more time to think.

“Three weeks later, I had to stay on post those three weeks, I got my jump certificate on Friday and I got home to our apartment and found her note, keys and my **divorce** papers on the kitchen table. She and our Kids had moved back to Washington state, 3,000 miles away. I came out okay in the **divorce**, she **didn't** take me to the cleaners, as they say, but two - weeks later got a bill for \$1,800 for moving her out there.

“I got a letter from her, she basically said she will find a man who will take her and the kids and will **not** be trying to get himself **killed** all the time. She just **couldn't** handle me in the Army. That happens to a lot of us as I hear.

“I was never close to God, well okay, yeah, every day and many times some days in Vietnam I was what people call a fox hole Christian. God save my ass, God get me out of this crap, God get me out of here okay and I will be your preacher and I get out of the Army, etc. I guess I believed it over there in the **war** at that time but now, I know that I am **not** sure just what that really was. I **didn't** know God and I had **no** idea who Jesus was. I know now that I was lost. Then I drank to **kill** the pain that I had failed the woman I loved and my kids. I had mostly working women live with me for a week or a month. Then when I found someone else would ask her to leave so another woman could move in with me. For me they were all **sexually** great, well maybe except for one or two.” Jessie knows Steve need to get this out of him. Jessie senses she is blessed to get teamed up with Steve on this mission.

“I did my Army job great but it was after duty time when I drank and really chased women, well really those women's skirts and what is in those skirts as the three Chiefs say. I got on that old Glider drug mission trip with the “T” unit to buddy jump along the US border with you guys. The night before I went to the NCO Club and got drunk again.” They **don't** visit any more for a long time. Jessie will **not** talk first again because she feels Steve needs some more time to think about this down in his heart.

A bit later. “Did you know that?” Steve asked.

“Yes. Mike or Keith told us. You stumbled in the hall and kicked the trash can. But you were okay when you loaded up to jump for the mission.”

“Okay. We were buddy jumping, I released my double buddy and the wind got my chute and pulled me back and I banged a big rock real hard and that broke my leg. They got me off the rock and with me moved over and leaning on my back pack. They splinted up my leg and then they went on the mission. I really felt so stupid getting my leg broke. They were gone for maybe a bit over two - hours. I heard them on the radio on my ear phone. I even heard that M-60 chopping up that shack. I was sure we had lost two - people. I was there most of the time really beating myself up in my mind. And I was in a lot of leg pain even with the two - shots. It **didn't** seem long and they are back with a US Border Patrol woman, that is Betty and the two - fence jumpers.

“Those four “T” people and the two - young Mexicans got right down on their knees by me, then go on putting their hands on me and they are praying for my leg.

“I have never seen anyone pray for anyone like they did. I sure **wasn't** expecting for God to **heal** my leg any. My leg got all buzzy inside and I got little electrical shocks all through my leg. I saw, as I am sure they did, I really saw my leg bone go right back into my leg and all my pain left.” Steve **stops** for a few minutes.

“I knew, yeah, I just knew that I did **not** in any way deserve any **healing**, especially any **healing** from God. Inside I was really in shocked over this. I **don't** think I even said one word until after I got off the choppers.

“All I have said about women **not** being in the military I was sure Jay A. and Jay C. would rather cut my ball off rather than be saying any loving prayer for me. They said a loving **healing** prayer for me. And their God **healed** my broken leg better than new. You have been on missions with them. They both do things I would never believe if I **wasn't** there.” As Steve looks over, Jessie just nodded back yes. Steve **stops** for a few minutes.

“Both Jay A. and Jay C. really jumped me about **not** liking any women in the military right in front of our two - Army 82<sup>nd</sup> Air Born women. All you women in this unit have really changed my mind about all women being in the military.” Steve **stops** for a few minutes.

On team # 2 C (3) 82<sup>nd</sup> > Army SSgt. Fred Buckley (**male**) and Team # 2 D (4) Army Pfc. Lori Gross (**female**). Things are quit. “Lori. As a woman in the “T” unit what is your take from a young woman’s view of the “T” unit and missions you have been on?” Fred asked Lori.

“I joined the Army because I have three - older sisters. I have a lot of relatives and cousins who have given some years back for and to our Country. I wanted to help keep and make better our great US. I soon hope to make Cpl. I have been in the Army now just at two years and guys and gals were talking about this new Special Forces unit and I applied. Most of the gals told me I was nuts. I would get into those **bad drug** fights and I would get hurt. Hurt **bad**. The unofficial roomer was it was a new unit is to go after **bad drug** people. If I could help keep **drugs** away from any kids which I plan a bit later to have, I am in. I never thought I would ever get this unit. **Not** many even applied. Then, I got here.

“We trained a lot more than we did in basic and then had a unit vote. These people wanted me to work with them, wow what love I have got back from these people plus a lot of black and bruised places on my whole body. I have never before found the brotherly and sisterly love as I have in this unit. I have one more year, but since the vote, I am thinking to re - up but only if I can stay in this unit.

“I am sorry, I got a little emotional there. I have been on a few missions now and as a woman I have the same opportunity as the guys here on these teams as I can do as well as the men do. I heard a lot of **fire** - fighting **war** stories from the guys in my past unit.

“I now have seen the differences between shooting to **kill** and shooting to only save our asses. This team only shoots to hurt or **kill** only to save our team’s ass. The **bad** cartel **drug** army men have seen real compassion and God’s real love from this team and from the South American Special Forces Army Col and his men.

“I was right there when over 60 - of his 105 - men got baptized in that small horse tank. When we turn over those cartel **drug** army men, I know those men are mostly released in less than 10 - days. I have talked with some with Rita down there. Have I told you what you were looking for?” Lori asked.

“Yeah, and more. But as a woman and out here if you have to go potty out here with me being right here with you as a man. Are you concerned any about any others or me maybe seeing you?”

“That makes me **remember**. I now see that as it was really funny. We are like this but I was teamed my first time with another woman. I am doing my business and in my ear radio set come, “Click. A woman ahead of us is using white TP.” I know it was me. I **didn’t** think white TP would show where I was at. That thought me **not** to use white TP. Woman team mate asked me if the men saw me well enough to tell I was a woman or **not**. Yeah know, what really bothered me was it they saw where I was at more than maybe seeing me. I could have been shot with my pints down.

“**No**. I was on the mission when we got to free 609 naked women, a few naked very young kids and some naked men. They were every day walked around that part of town naked with a small choke chain around their necks and were made to give their **sex** to anyone who paid a few bucks just to screw those women right out on the grass right along the walk way out in front of everyone around. For those dirty men to **sexually have** a man’s cum dump. They were less than just cheap whores. For over two - weeks those men and women felt so dirty they **wouldn’t** even cover themselves up with the new clean robe we gave them. We marked each one with a number from 1 up to 609, more so for the women. We recorded their number and they each took over 47 showers each every day. Their self - value as a man or woman was way down below zero like being gone. When Chief James started to train us, as he did for days on how to get each one of their value and **sexuality** value back, I was ready to rebel as that is even against the Bible.

James asked me if I would do mouth to mouth resuscitation to a man or woman to put the breath of life back into them, I had to say yes. He had, well he got me do things I **didn't** even think I would ever do to my own husband after I get one or my husband ever do to me." Lori **stops** for a few minutes, they sit quit.

"Please Fred. I love these "T" unit people. I have learned more about a real relationship with God than I did with all my years in Church.

"I have learned more about myself. I have learned to love myself. That I really do have personal real value. And I have learned more about other people, both good and **bad**. I have learned more about my own value and the great value of all others. I **don't** want to give up what I have with these unit people. I think I am going for at least three - more years, well maybe four because I still have a year to go. Then if I find my husband to be then maybe I will get out of the Army. I plan on saving myself for my husband until then."

"Wow. Thanks for sharing that with me. You have any **questions** for me?" Fred asked Lori. They sit quit for a very long few minutes.

### After the Rapture - Left Behind

If you are watching this video and millions of people around the world have just disappeared, you need to know the **truth**. What you are going to see and hear in the next few minutes will change your life forever!

For over 2,020 years the Bible has been proclaiming to the world that Jesus would be coming back. Jesus stated in **John 14:1**, "I will come again."

Because Jesus has returned, millions of people who have put their faith and trust in Jesus as their Savior, with people accepting HIS free gift of salvation, will have disappeared in an event called the Rapture.

You might be thinking that there was something mysterious in the sudden disappearance of millions of people, but the Bible has already **explained** this so - called mystery. Jesus said that when HE came again, HE would come for those who are saved.

HE said, "I will receive you to Myself; that where I am, there you may be also" ([John 14:1 - 4](#)). The Apostle Paul put it this way: "Behold, I tell you a mystery; we shall **not** all sleep, but we shall be changed, in a moment, in the twinkling of an eye, at the last trumpet" ([1 Corinthians 15:51 - 52](#)).

The Rapture happened to those of us who accepted Jesus as Savior, both those alive and those who had **died** since Jesus was resurrected. Both groups — living and resurrected believers — were caught up to be with HIM in the air ([1Thessalonians 4:13 - 18](#)).

We must face the facts and realize that all of us have friends and family members that are going to miss the rapture.

In "After the Rapture" we hope to give a step - by - step **explanation** of what has happened, why it happened, what to expect next, what they must do and what they must **not** do!

On team # 2 E (5) Army SSgt. Jerome Dickey (**male**) and Team # 2 F (6) Army Pvt. Rain Gifford (**female**). Things are quit. "Jerome. Have you ever been with a woman? I mean **sexually** with a woman?" Rain asked.

"It is really none of your businesses. But, yes, with a few. Okay. Why?"

"I am trying to work out **sex** for a man and for a woman like me. I have a man friend back home and just maybe I think he will ask me to marry him, soon. I am planning to be in the Army just for the next year like and then get out."

"I **don't** know what he does for a living but does he know what you are doing here in the Army. You must be woman worth a lot if he is willing to wait that long for you. What does he do."

“He works with his dad building homes back in Indiana. We have talked a lot about life, marriage, having kids, men and women, a lot of things and he can build homes where ever. He has said he would come down here and find a building job. He says he is a virgin but I kind of have my **doubts** about that. He does go out and have dinner sometimes with a gal I know who stayed in our town a year behind me in high school. But only as friends.”

“I have seen a lot of so - called strong men, even very strong married men cave in to **sex** when any woman flaunts herself with her lumps and bumps and lets a man know he may have her, her **sex** that is, like to have her body. I spent a year in Vietnam and for \$4 to a bar gal will give her **sex** to a GI. We had a lot of married men and they would just walk the streets close to a bar and get **sex** for only \$2 or \$3. They live over there on \$8 to \$10 a month. A lot of men brought back a **bad sexual disease** they never really wanted.

“They have infected a lot of women back here in the US and it is very people **deadly**, even more so than HIV. Is she a strong Church young woman?” He looks at Rain and she shacks her head **no**.

“Is she a good - looking young woman?” He looks at Rain and she shacks her head **yes**. “Well, there must be a good reason she **doesn’t** want a man in her life. Are you concerned that he has had **sex** with her?” He looks at Rain and she shacks her head **no**. He looks back out at their field of **fire** zone.

“Ah, how do I say this. Ah, she is a man giving up a women’s woman. She wanted to come in the Army with me and get her GED but the Army rejected her. The Army rejected her for the way she is physically.” He looks at Rain.

On team # 2 E (5) Jerome (**man**) (**What do you think they talk on more about?**)

On team # 2 F (6) Rain (**woman**) (**What do you think they talk on more about?**)

(**After a long time they talk a lot more.**)

“I wanted to be baptized with you guys and gals, you know like in with the “T” bunch with you, but I just **didn’t** do that part yet. I **don’t** think I can or that I am ready to just pray for other people like some do in the “T” unit. I am **not** ready inside yet to be baptized, do you think I should be, ah, baptized?”

On team # 2 G (7) AF SSgt. Donald Mueller (**male**) and Team # 2 H (8) Army Pvt2. Robert Muller (**male**). Things are quit. “I think I would rather be teamed up with one of the unit women. They talk softly out here when things are this slow and quit,” Bob (**Robert**) says.

“I’ll visit with you. What do you want to visit about?” Don (**Donald**) asked.

“Do you really think we are doing any good out here, really?” Bob asked.

“Let me tell you a story. A man is walking along a beach, there are a lot of small **dead** crab shells all along this beach. He reaches down and picks up a live little crab, one of many thousands on this beach and he threw it way out, back into the water. What do you think?” Don asked.

“I think he was wasting his time. One out of many thousands.”

“Well, you did hear me, good. Okay. When he threw it way out, back into the water. He said, “Well, this will matter to that one.” Don looked over at Bob for a moment.

Bob has **no** face expression; he is looking out at their **firing** zone. “This great team gets the 360 - pounds of **bad drugs** out of the hands of the **drug** cartel men that will soon send those packs into the US or anywhere and we have made a big dent in this **drug war**. The South American Special Forces Col.’s team recovers ten - times what we do. Our people on this team came down here and trained them.

“We are only a small part of making a lot better relationship with the South American people. This S.A. Col. kept and feed us for over five - weeks on his money when this team was recovering those 609 naked US women that were **sex** slaves. This team just **stopped** 215 – **bad drug** cartel army people and only one of their men got their hand hurt. **No** one else I know for a fact over 60 - of the Col.’s men were baptized by this team.

“Well, really a small girl age - five Bapped them. She was **kidnapped** along with her mother who later we find out as she turned out she was a minister’s **kidnapped** wife and daughter. And you are wonder if what this team is doing really anything as making any difference?”
